Avishek Adhikari

Software Developer & Digital Marketer

adhikariavishek2003@gmail.com | +977 9861774000 | Kathmandu, Nepal | LinkedIn | GitHub | Portfolio

PROFILE

BCA graduate (2026) with hands-on experience in software testing, full-stack web development and product growth. I build products, test them, then help them find customers — comfortable working between engineering and business teams. Open to developer, QA and marketing roles.

EXPERIENCE

Digital Marketing Manager — Grow More America · Remote, part-time

Jun 2026 – Sep 2026

- Ran end-to-end digital growth and online branding for a US-based aeroponics brand.
- Designed and scaled ad campaigns for product promotion and lead acquisition.
- Grew organic reach through content calendars and stronger design assets.

Assistant Marketing Lead — xCard Project

Jan 2026 – Sep 2026

- Led marketing and growth strategy for a digital loyalty platform.
- Onboarded businesses, trained their staff on the platform and built merchant partnerships.
- Managed field campaigns, customer acquisition and retention initiatives.

Software Tester Intern — Appsite Incorporation Pvt. Ltd.

Oct 2025 – Jan 2026

- Tested the xCard digital loyalty platform: wrote test cases and ran manual testing.
- Identified bugs and supported regression testing before releases.
- Maintained test documentation and QA workflows.

Digital Campaign Intern — Mayoral election campaign, Ramechhap

Oct 2022 – Dec 2022

- Managed social media and created content to raise voter engagement.
- Analysed engagement data to improve reach; supported ground coordination.

Exam Department Assistant — Texas International College

2022 – 2025

- Handled exam operations, including seat planning and question management.

PROJECTS

Loynex (Loyalty Bridge) — B2B2C digital loyalty platform for local merchants

Live · GitHub

- Replaces paper punch cards with scan-to-claim digital stamp cards, a points and rewards catalogue, and anti-counterfeit receipt vouchers, integrated with eSewa.
- Three surfaces on one API: customer wallet, merchant till dashboard and admin console; installable PWA.
- Live merchant analytics over an append-only ledger of every stamp, point and coupon.
- Stack: React 19, TypeScript, Vite, Tailwind, Express, PostgreSQL (business logic in SQL functions, triggers and views).

Assignment Management System — full-stack web app

GitHub

- Handles assignment submission, tracking and review in one place, backed by MySQL.

Tower Defense Game — browser game

GitHub

- Waves, pathing and tower logic written from scratch in JavaScript on the HTML Canvas API.

SKILLS

Languages	JavaScript, TypeScript, Java, C#, SQL, HTML, CSS
Frameworks & tools	React, Vite, Tailwind CSS, Node.js/Express, Git
Databases	PostgreSQL, MySQL
QA	Manual testing, test-case design, regression testing, test documentation
