

Avishek Adhikari

Software Developer & Assistant Marketing Lead

Kathmandu, Nepal | +977 9861774000 | adhikariavishek2003@gmail.com | linkedin.com/in/avishek-adhikari | github.com/avishekadhikari

PROFILE

BCA graduate and passionate developer with hands-on experience across software testing, web development and real-world product growth — I build the product, then help it find its customers. Currently leading marketing and growth for a digital loyalty platform I also tested from the inside, while building Loyalty Bridge, a merchant loyalty product of my own. Comfortable on either side of the engineering–business handoff, and looking for developer, QA or growth roles where both sides count.

CORE SKILLS

Development	HTML, CSS, JavaScript, React, Java, C#
Data & Tools	MySQL, Git & GitHub, HTML Canvas API, PWA fundamentals
Quality Assurance	Manual testing, test-case design, bug tracking, regression support, test documentation
Growth & Marketing	Paid ad campaigns, content strategy, social media management, business onboarding & partnerships, field campaign coordination, retention strategy
Strengths	Cross-functional communication, translating between engineering and business teams, analytical problem solving

EXPERIENCE

Assistant Marketing Lead

Jan 2026 — Sept 2026

xCard Project — xcardnepal.com · Kathmandu, Nepal

- Lead marketing and growth strategy for a digital loyalty platform used by local businesses.
- Onboard merchants and build partnerships that expand the platform's business network.
- Plan and manage field campaigns driving customer acquisition on the ground.
- Contribute to product growth and user retention strategy alongside the engineering team.

Focus: Growth · Partnerships · Field Campaigns · Retention

Digital Marketing Manager

Jun 2026 — Present

Grow More America · Remote, Part-Time

- Spearhead end-to-end digital growth and online branding for a US-based aeroponics brand.
- Design and scale high-converting ad campaigns for product promotion and lead acquisition.
- Improve organic reach through targeted content calendars and stronger design components.

Focus: Paid Ads · Branding · Content Strategy

Software Tester Intern

Oct 2025 — Jan 2026

Appsite Incorporation Pvt. Ltd. · Kathmandu, Nepal

- Tested the xCard digital loyalty platform through its pre-release and release cycles.
- Prepared detailed test cases and carried out manual testing across core user flows.
- Identified, reproduced and reported bugs, and supported regression testing on each build.
- Maintained test documentation and QA workflows for the wider team.

Focus: Manual Testing · Test Cases · Regression · Documentation

Exam Department Assistant

2022 — 2025

Texas International College · Kathmandu, Nepal

- Supported exam operations including seat planning, question management and record keeping.

Focus: Operations · Coordination

Digital Campaign Intern

Oct 2022 — Dec 2022

Mayoral Election Campaign · Ramechhap, Nepal

- Managed social media channels for a mayoral candidate throughout the campaign period.
- Created platform-specific content that increased voter engagement and reach.
- Analysed engagement data to sharpen messaging and improve campaign performance.
- Supported ground-level campaign coordination alongside the field team.

Focus: Social Media · Content · Analytics

PROJECTS

Loyalty Bridge — Digital loyalty platform for local merchants

Currently building

loynex.onrender.com

- B2B loyalty system replacing paper punch cards with scan-to-claim digital stamp cards, a secure points and rewards catalogue, and anti-counterfeit receipt vouchers.
- Three surfaces on one API — a customer wallet, a merchant till dashboard and an admin console.
- Live merchant analytics built over an append-only ledger of every stamp, point and coupon.
- Installable PWA wired to local payment gateways including eSewa, built for shops across Nepal.

Stack: PWA · QR / scan-to-claim · eSewa integration · merchant dashboard

Assignment Management System

github.com/avishekadhikari

- Full-stack web application for managing assignments — submission, tracking and review in one place.

Stack: Full-stack web app · MySQL

Tower Defense Game

github.com/avishekadhikari

- Browser tower-defense game with waves, enemy pathing and tower logic written from scratch.

Stack: JavaScript · HTML Canvas API · Game logic

EDUCATION

Bachelor in Computer Application (BCA)

2022 — 2026

Texas International College, Kathmandu

- Graduated 2026. Built strong algorithmic thinking, database concepts and system architecture fundamentals — the technical base behind both my development and marketing work.
